

Hamming distance separated by family size

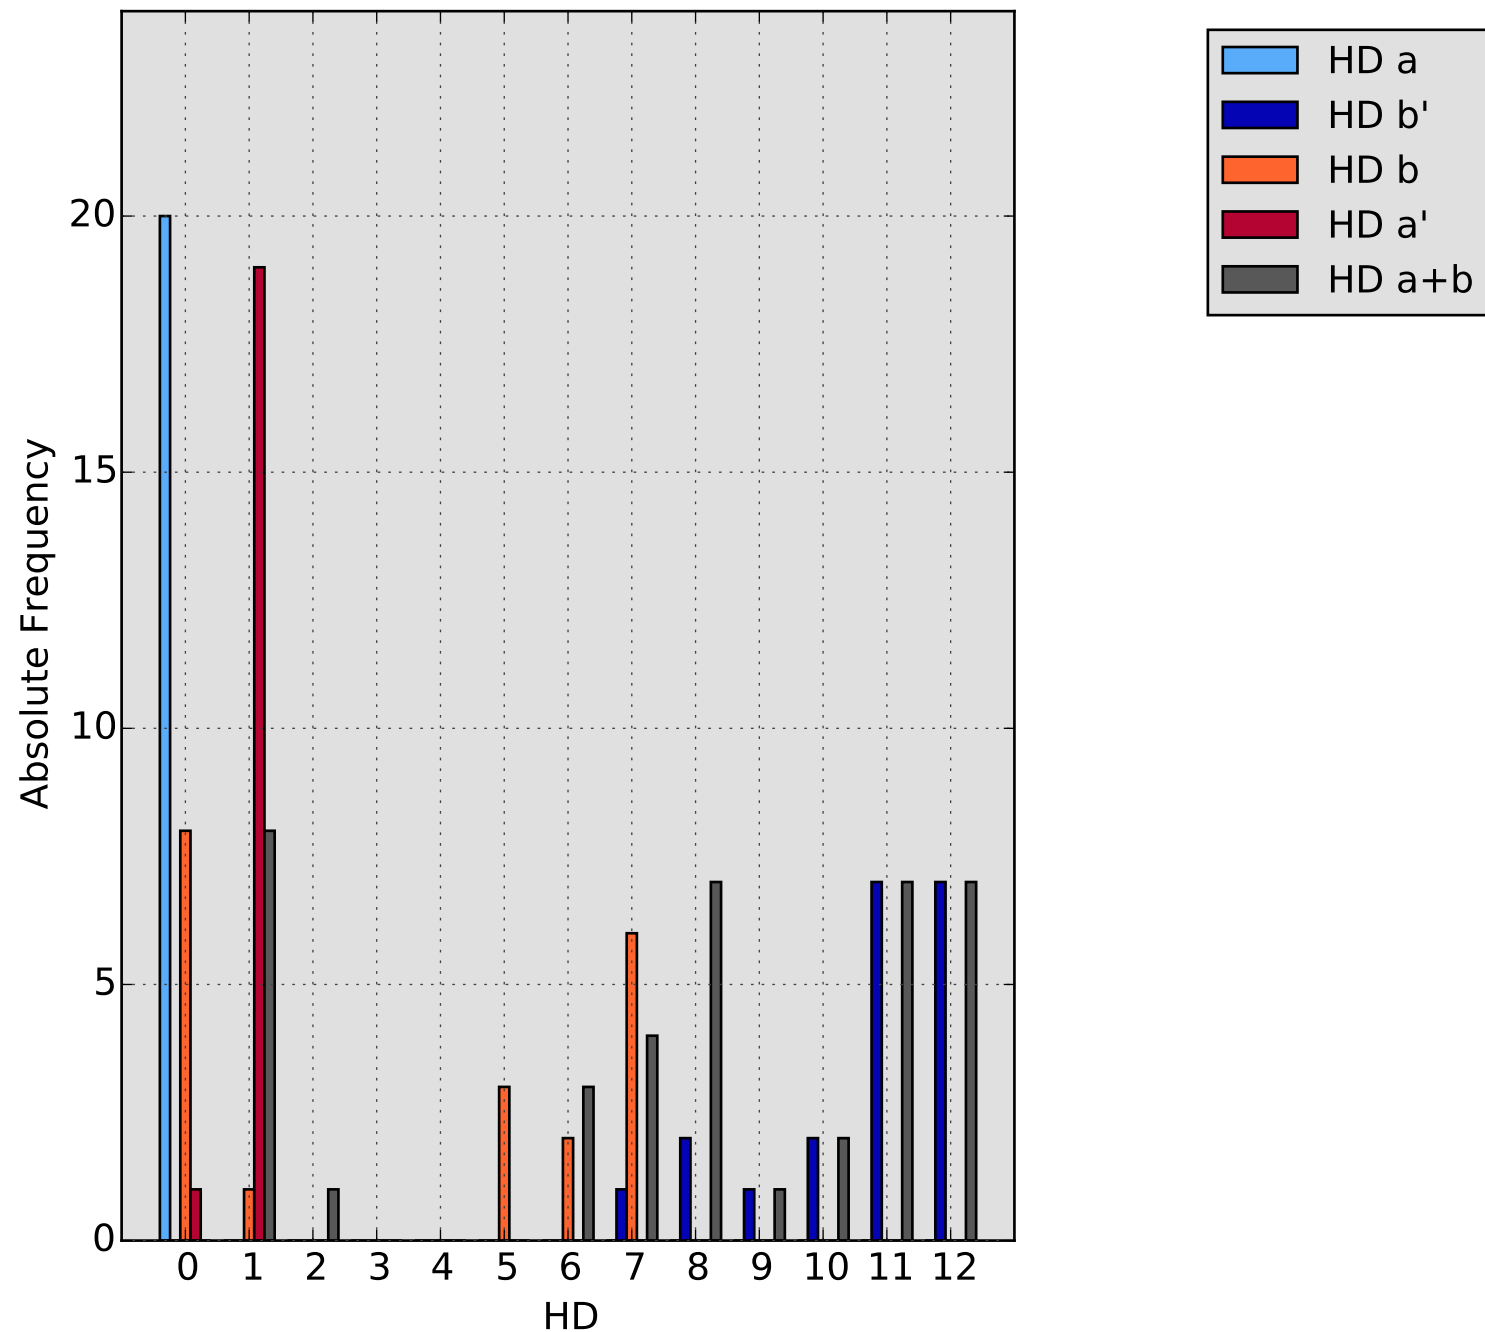

nr. of tags = 20
sample size = 20
nr. of data points = 20

Family size distribution separated by Hamming distance

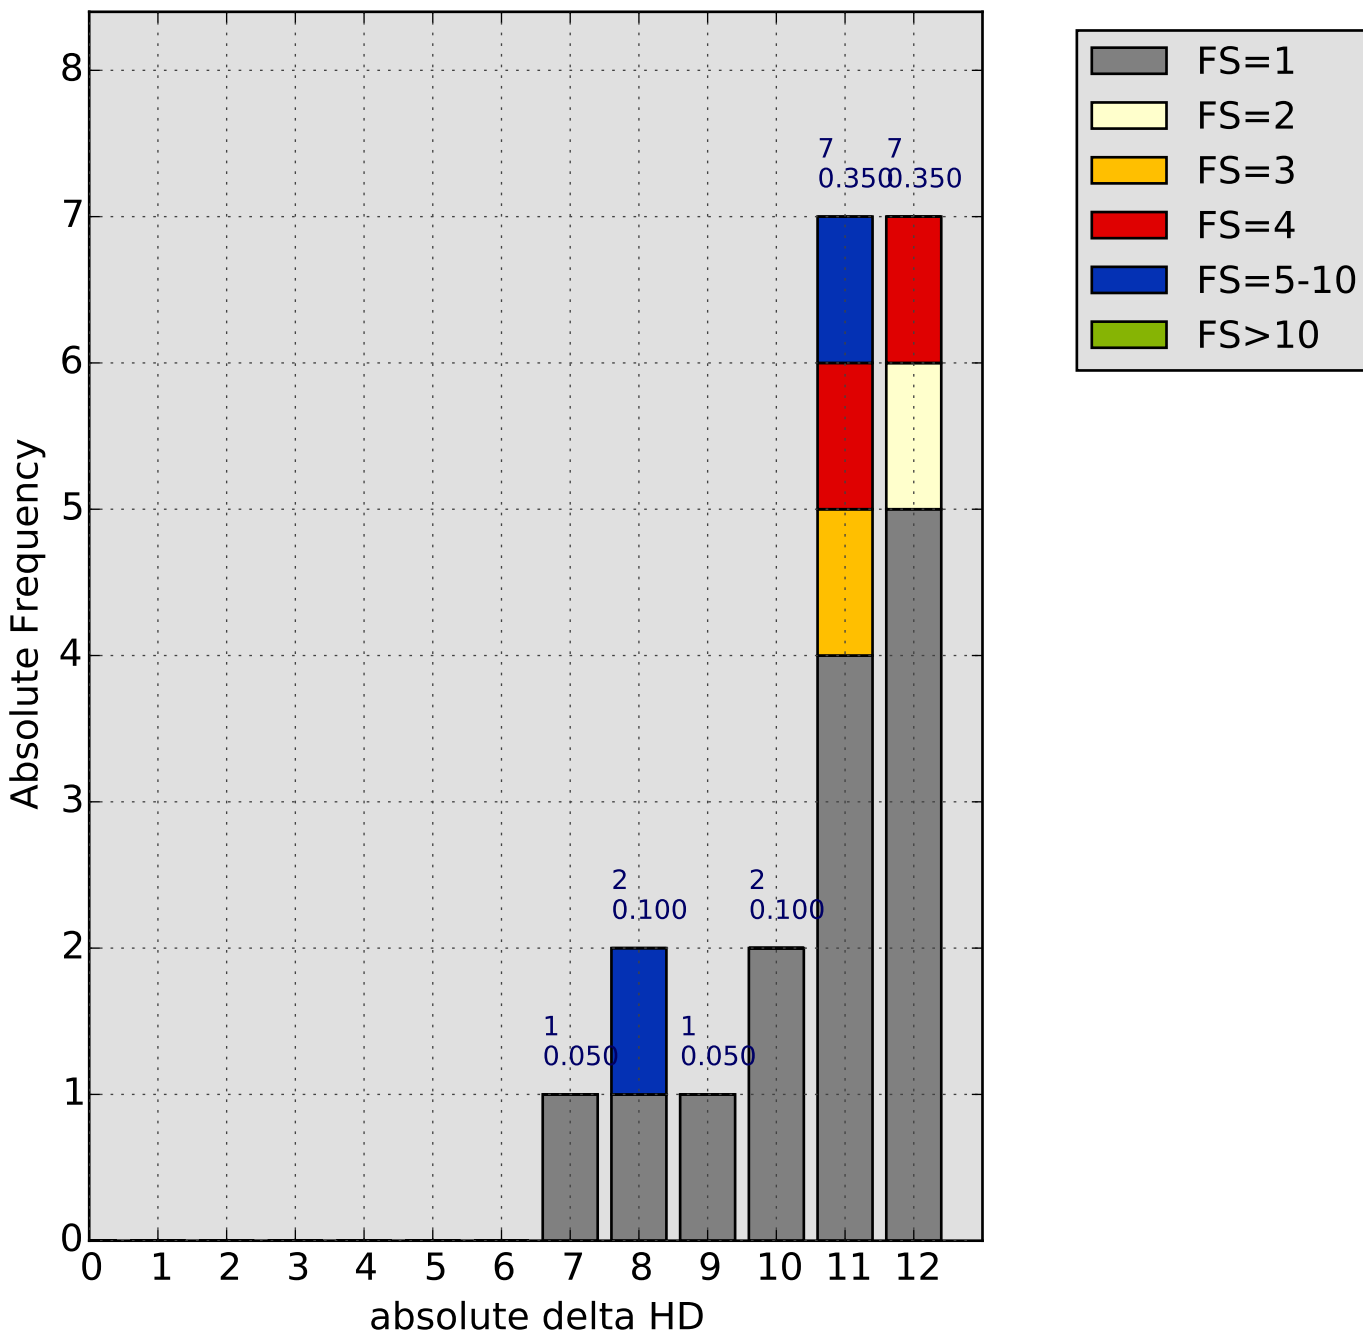

family size:	7	singletons
absolute frequency:	1	14
relative frequency:	0.05000	0.70000

Hamming distances withintags

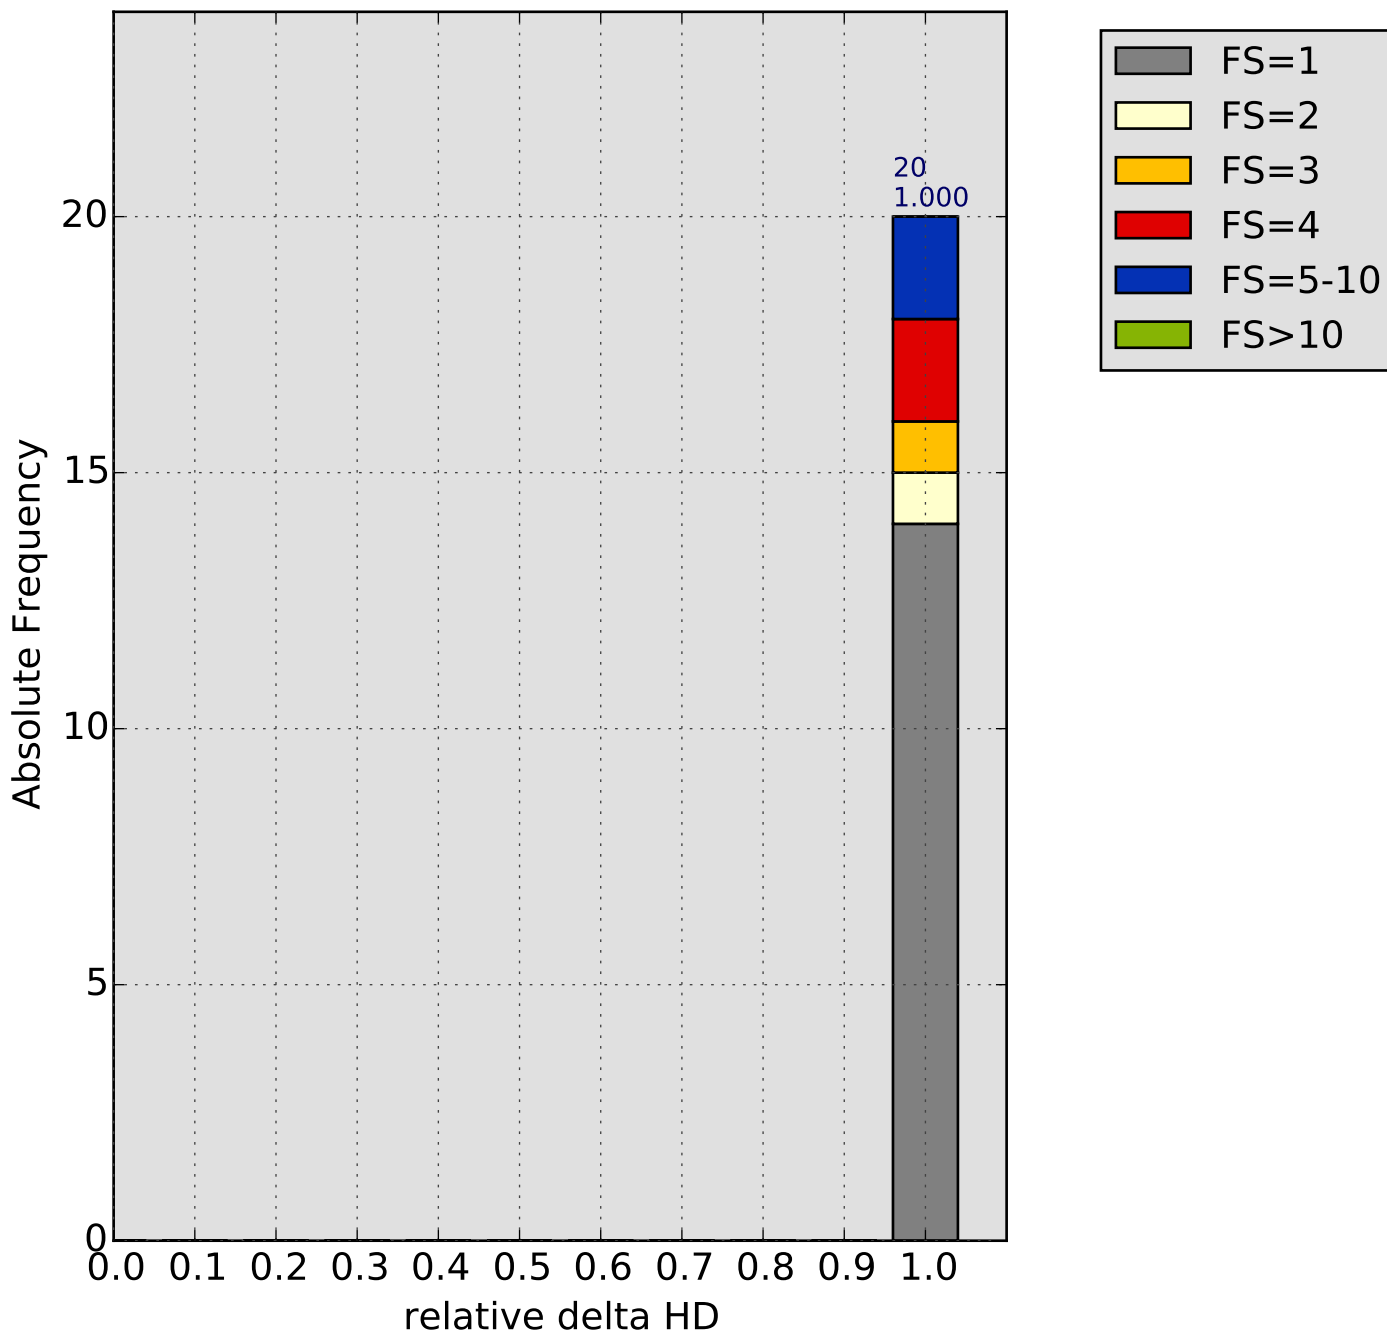

nr. of tags = 20
sample size = 20
nr. of data points = 120

Delta Hamming distance within tags

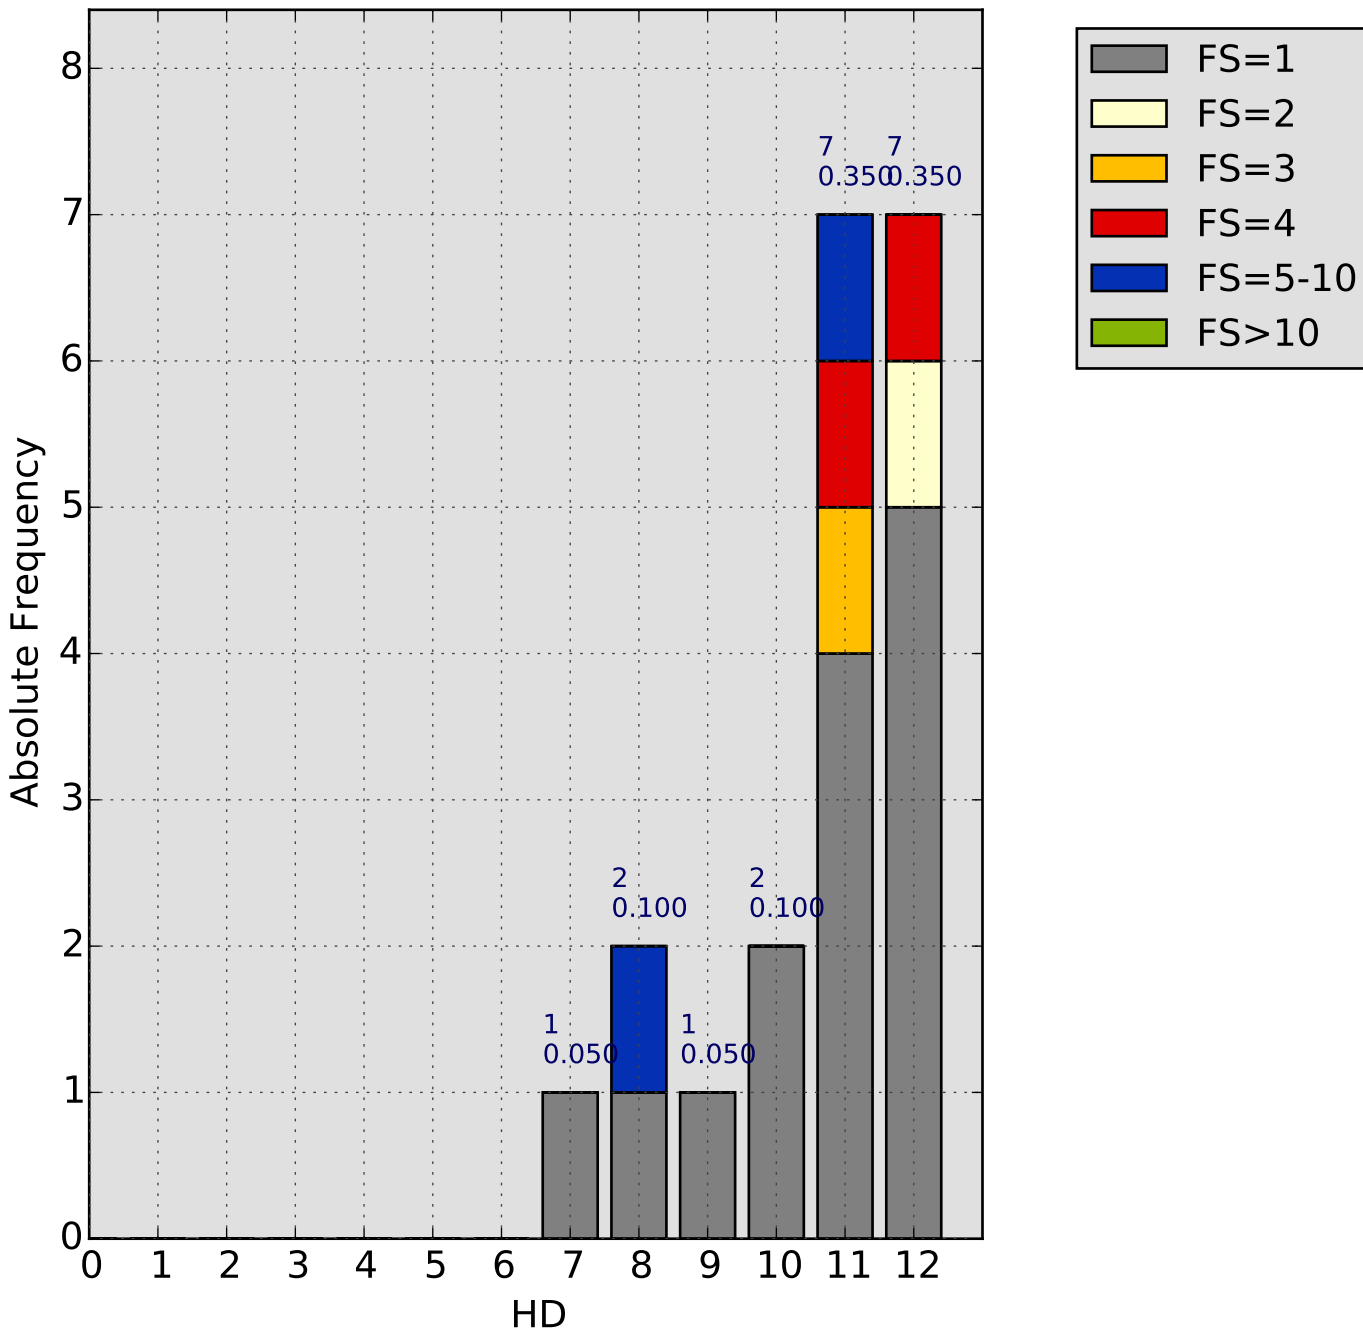

nr. of tags = 20
sample size = 20
nr. of data points = 20

Chimera Analysis: relative delta Hamming distances

nr. of tags = 20
sample size = 20
nr. of data points = 20

Hamming distance of chimeras
