Hamming distance separated by family size
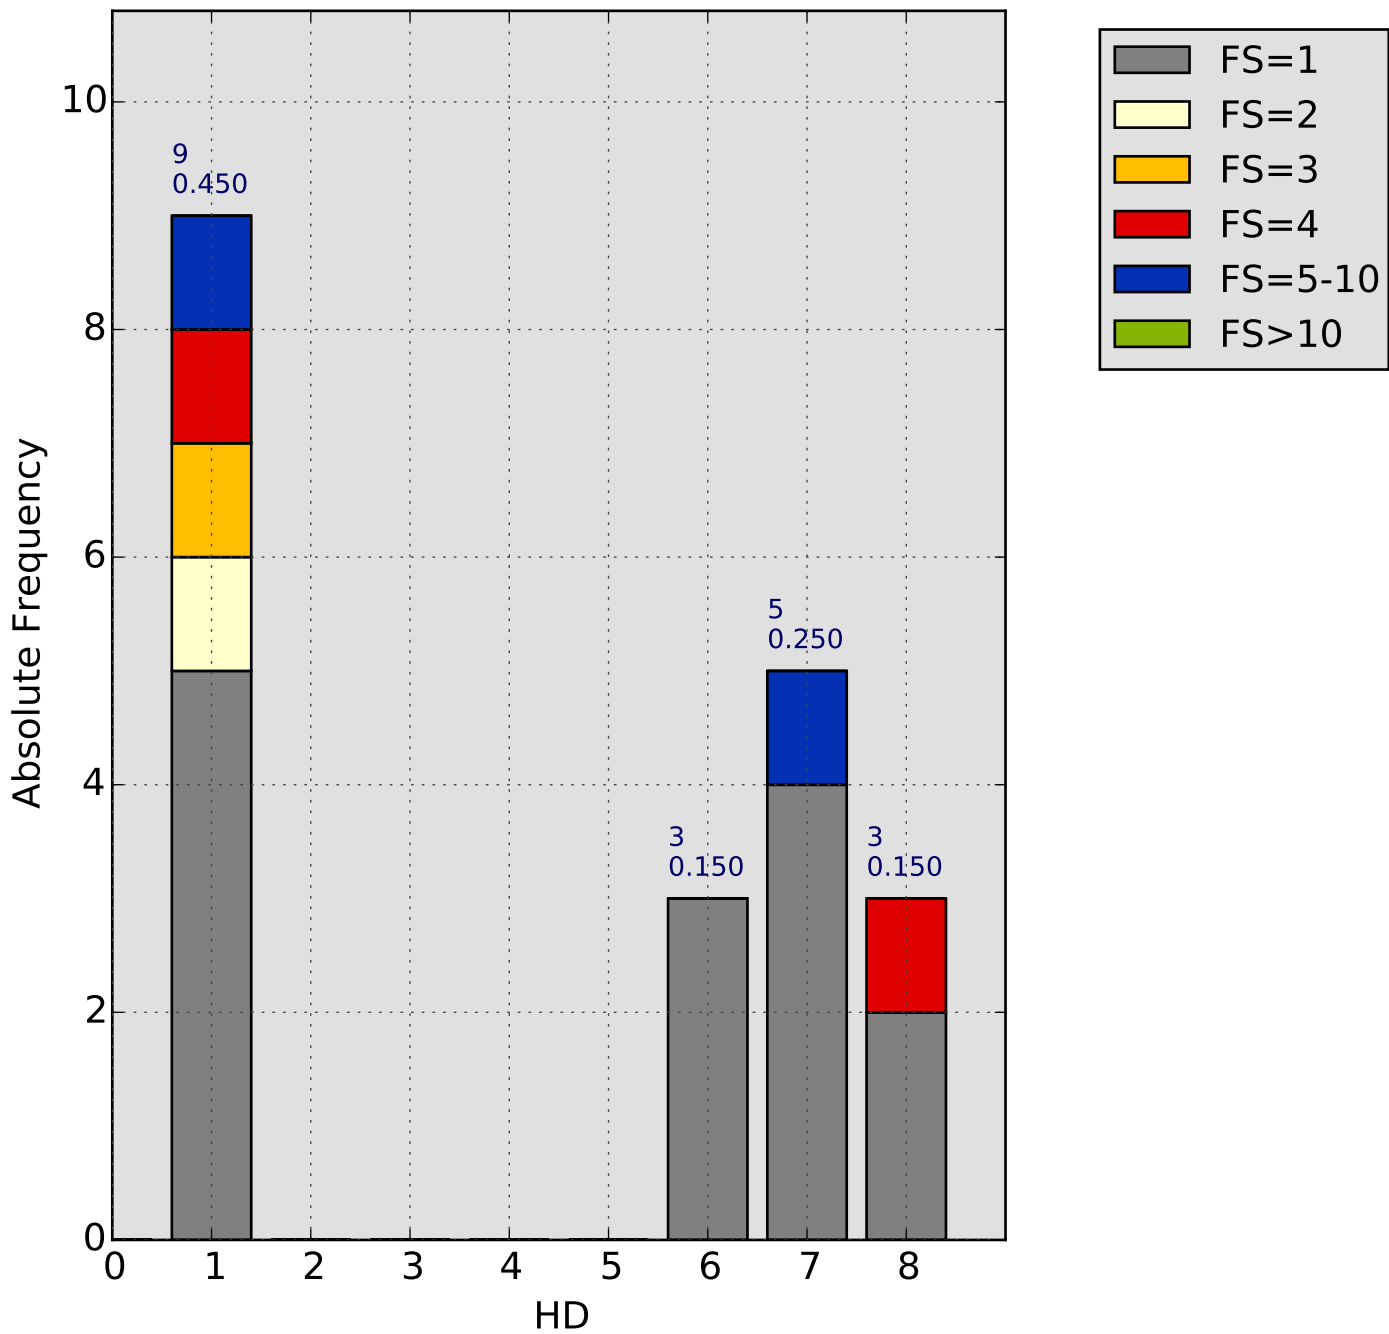

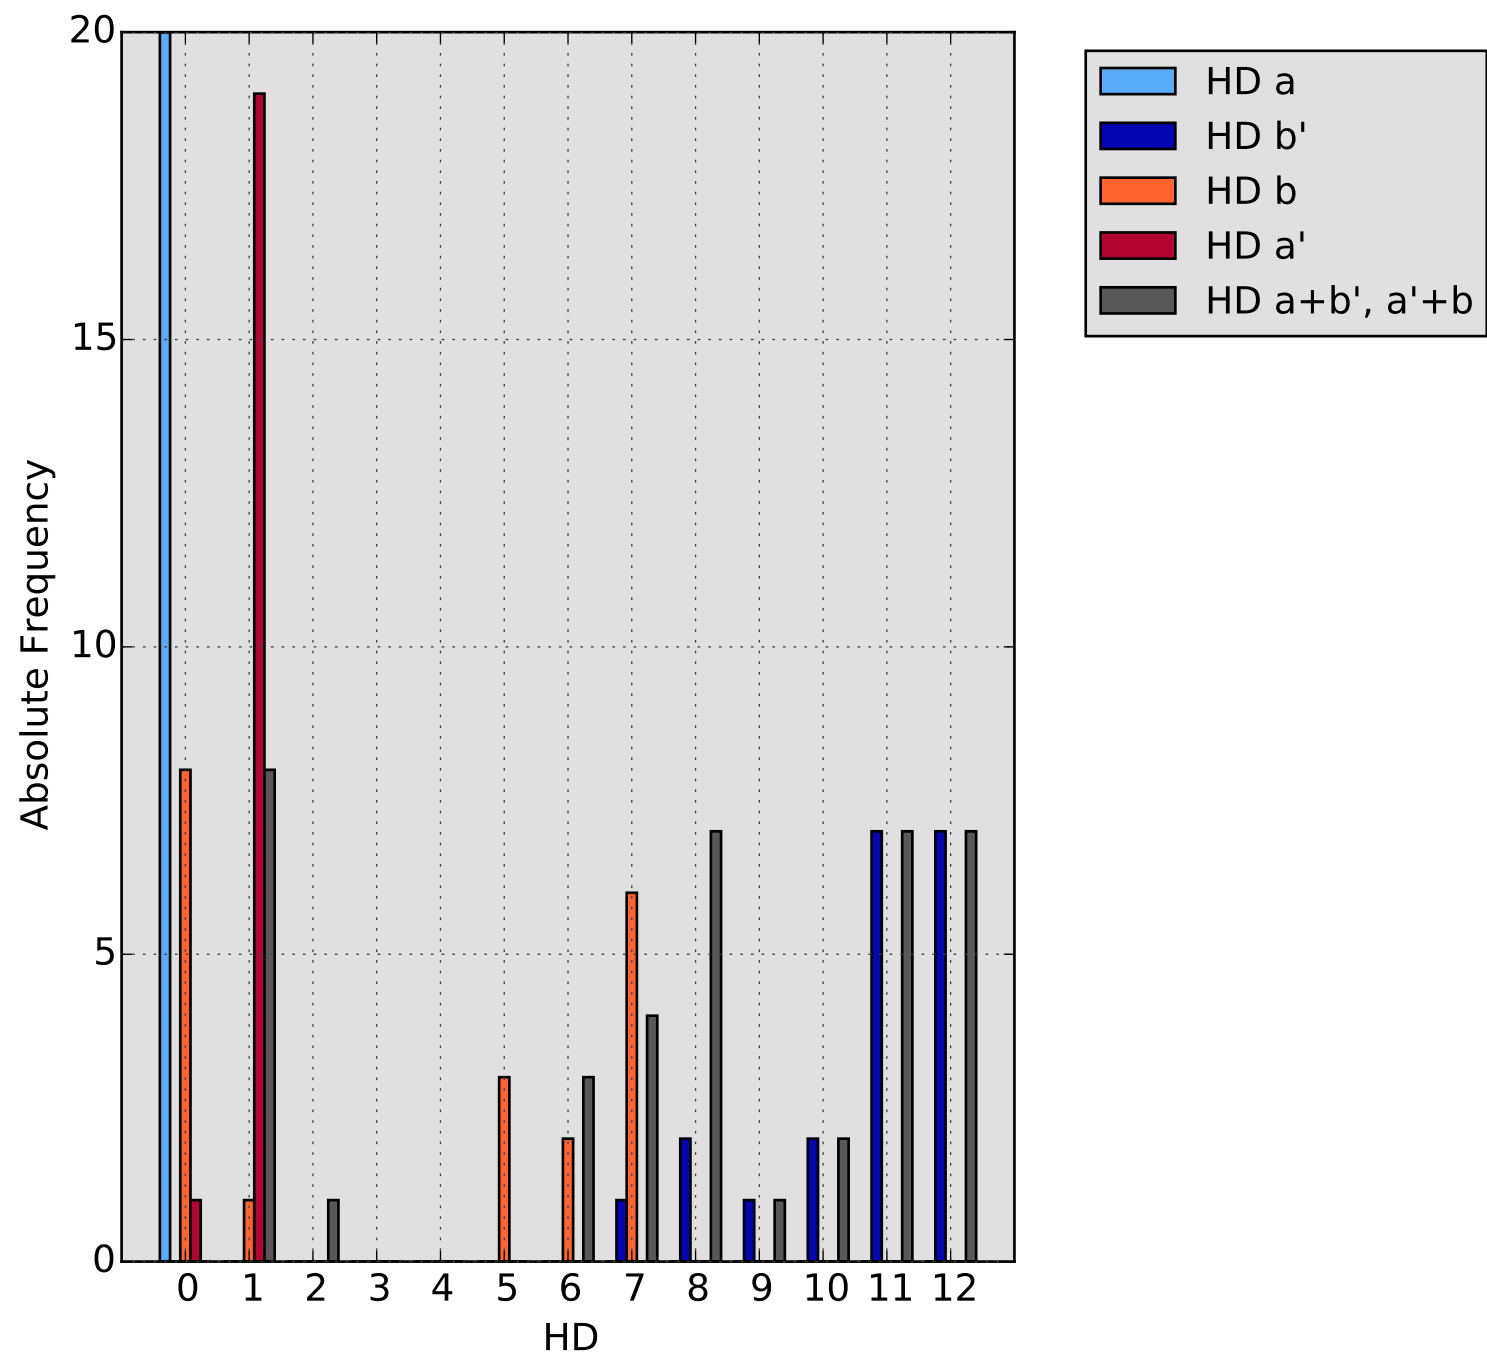

Family size distribution separated by Hamming distance
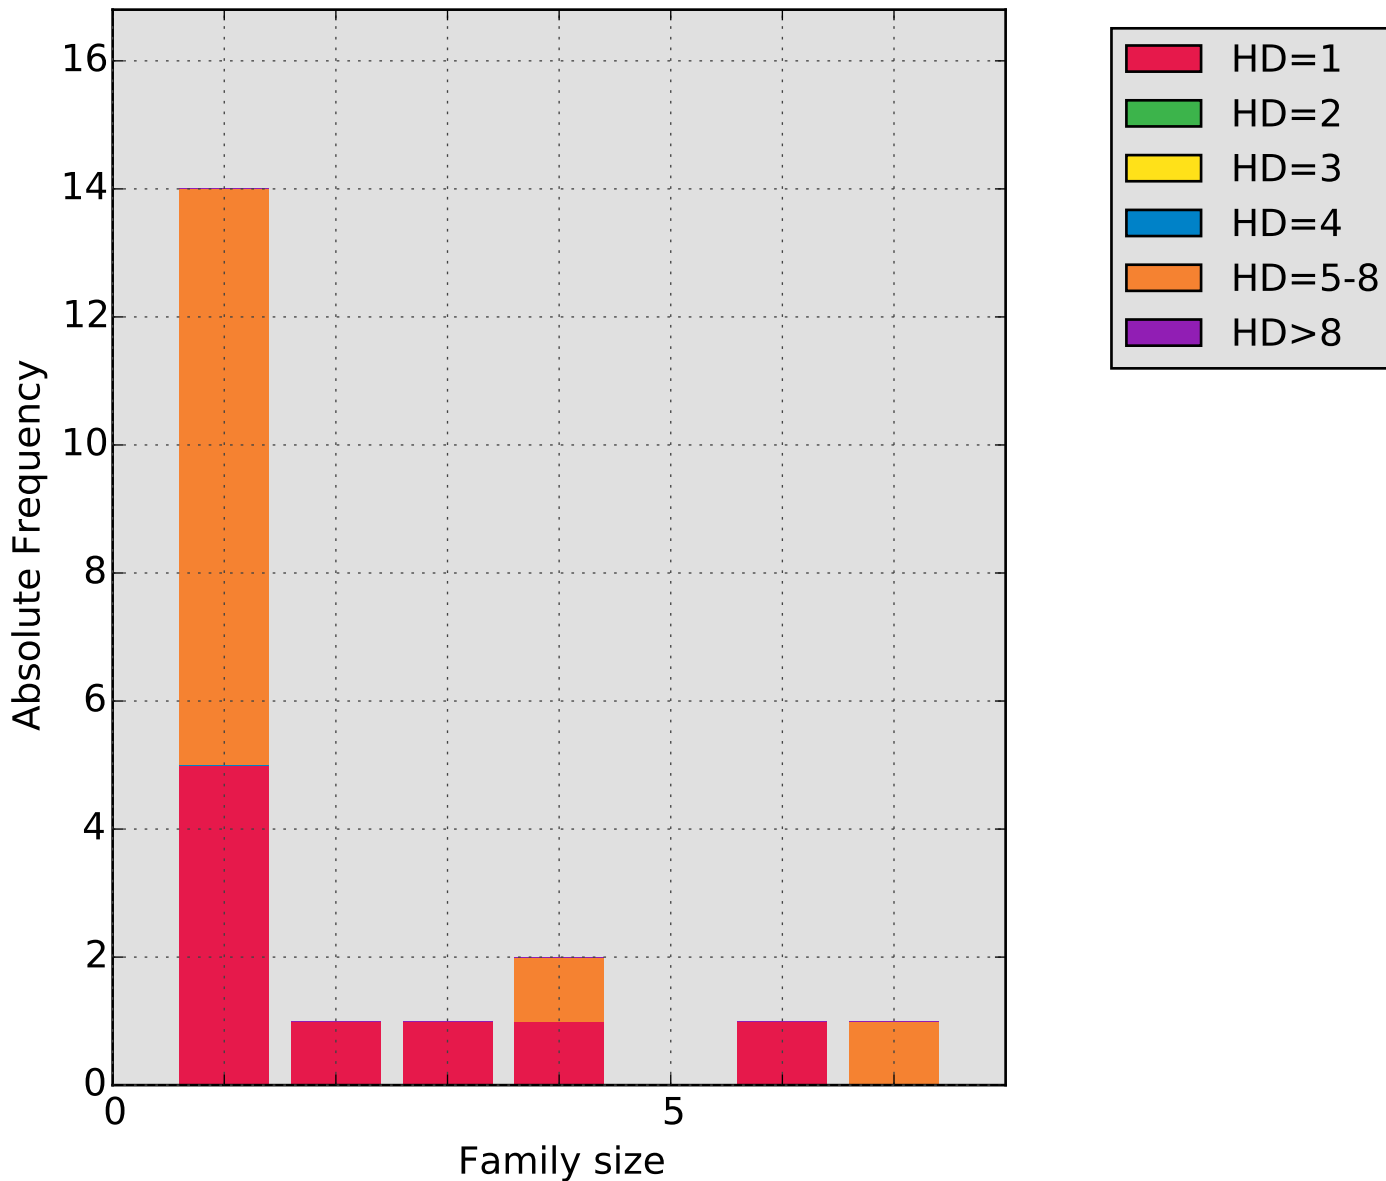

| family size:	7	singletons
absolute frequency:	1	14
relative frequency:	0.05000	0.70000

Hamming distances within tags

nr. of tags = 20
sample size = 20
nr. of data points = 120
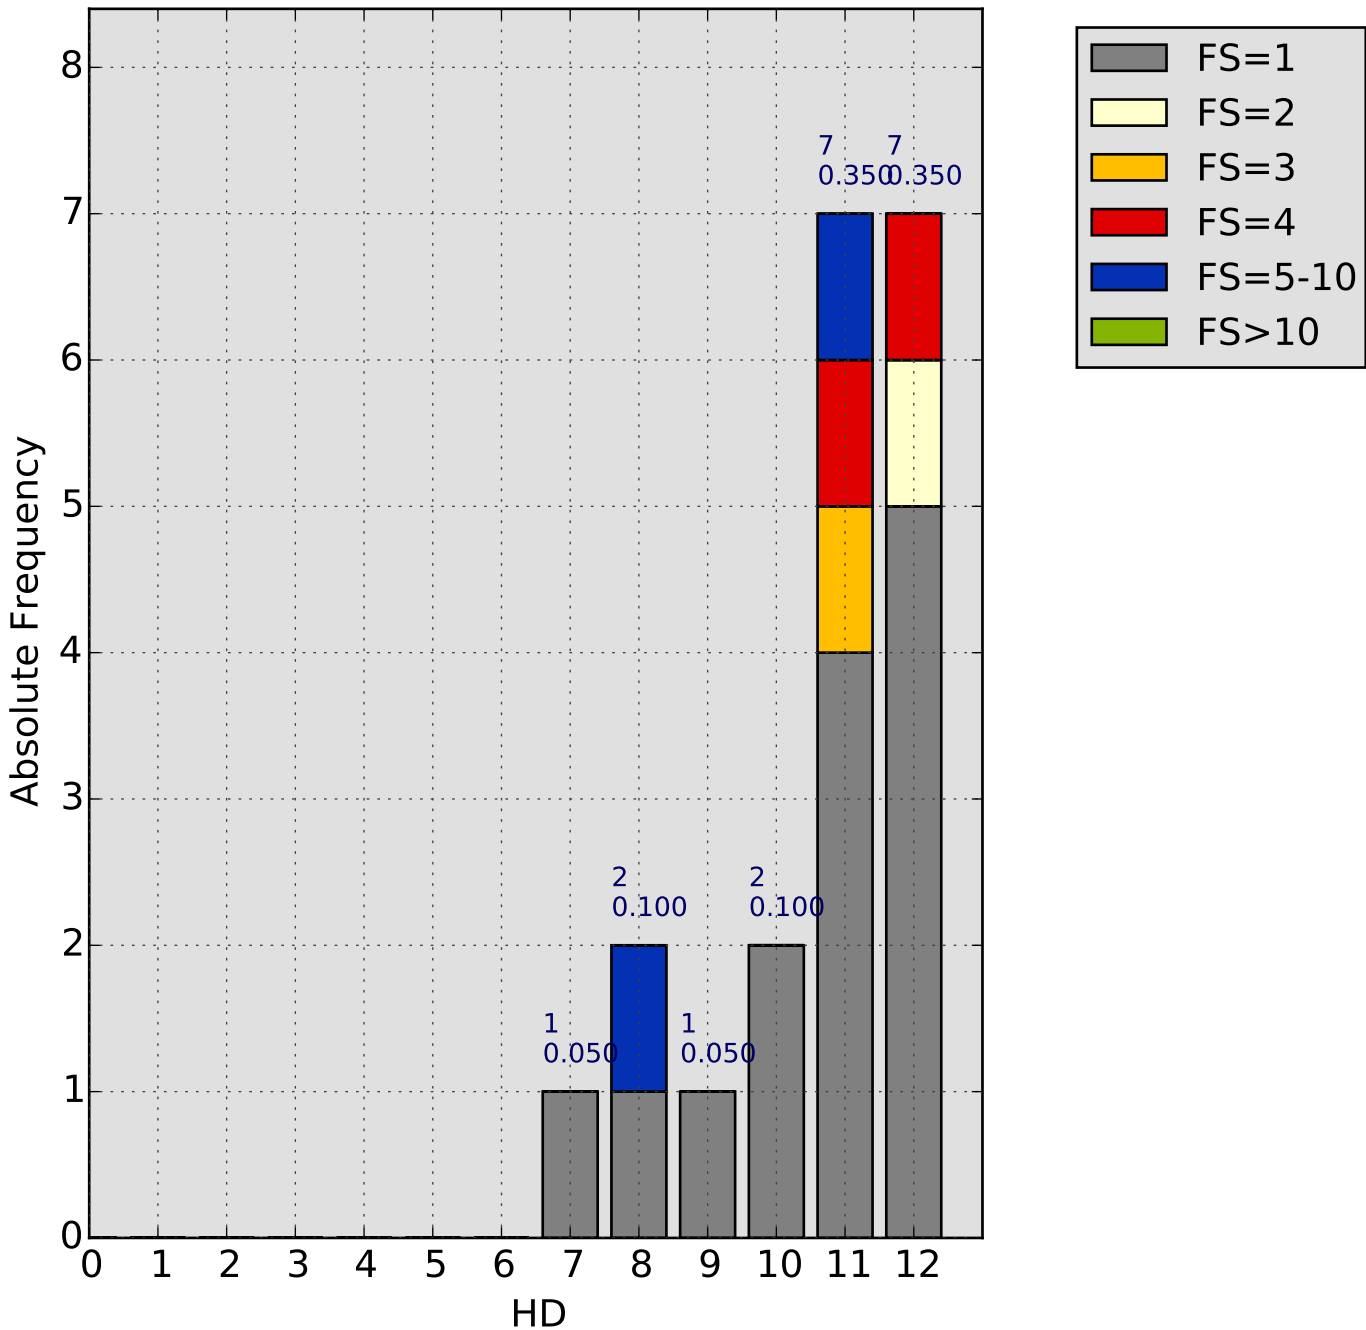

Delta Hamming distance within tags

nr. of tags = 20
sample size = 20
nr. of data points = 20
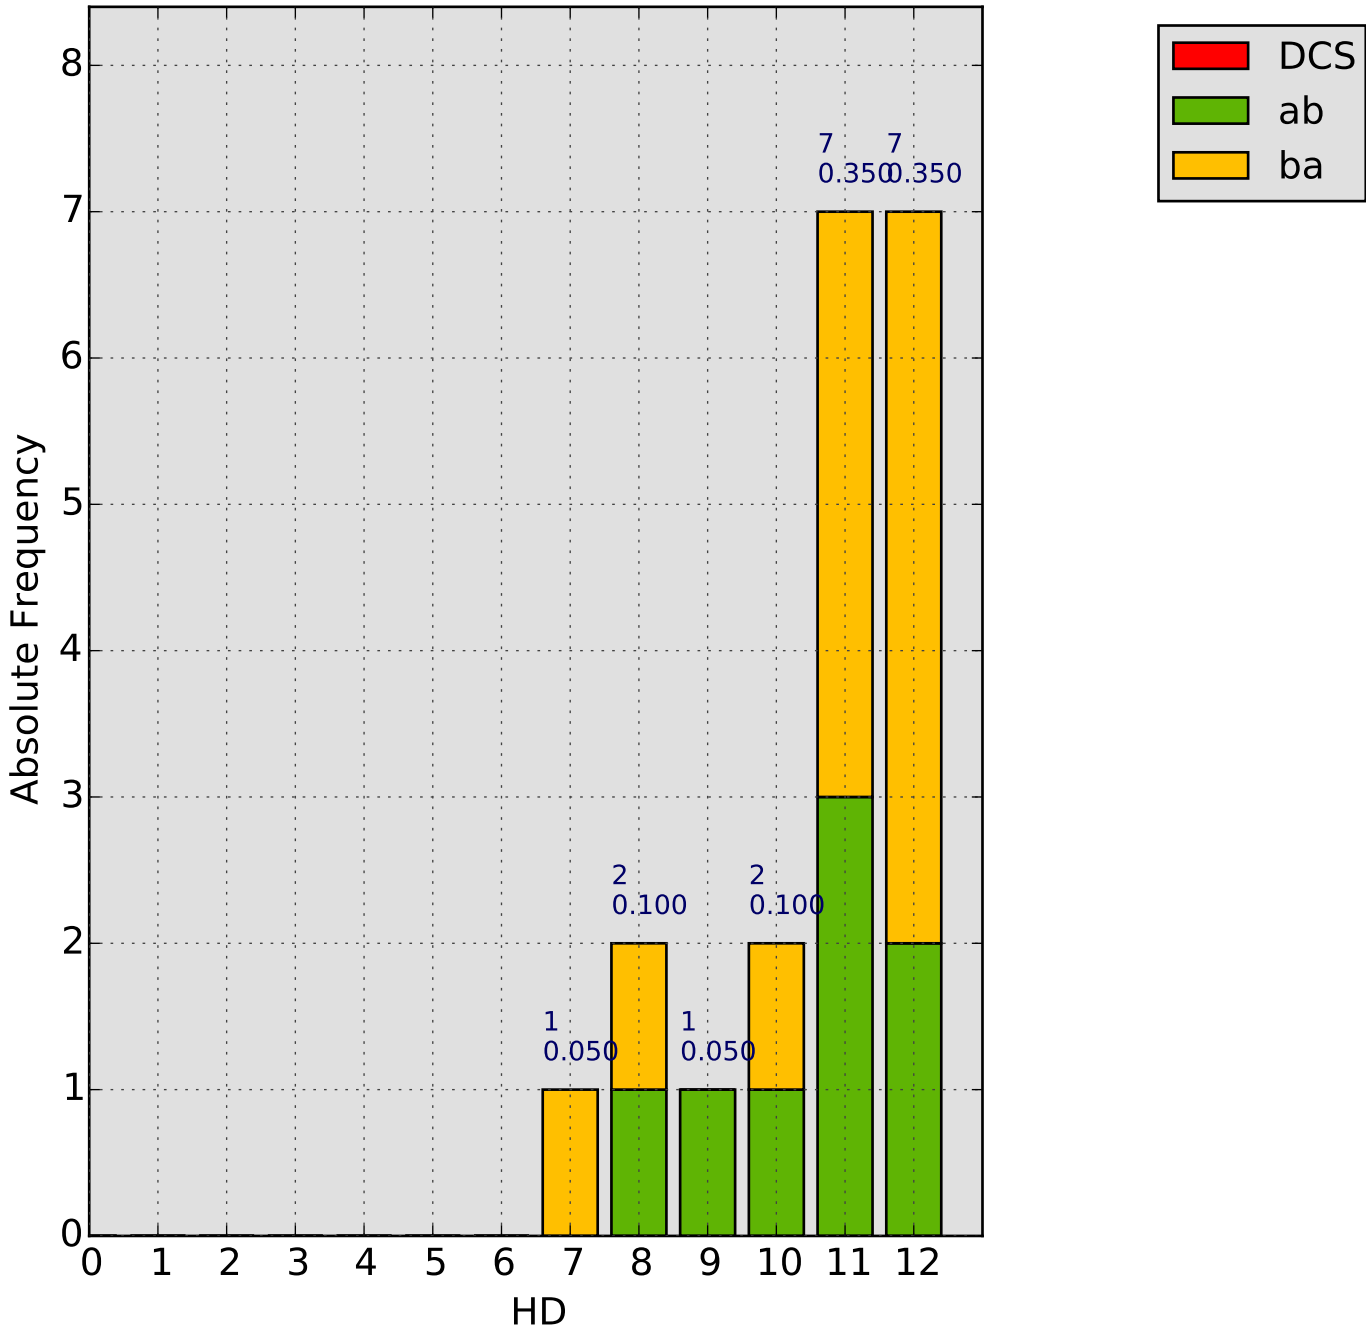

Chimera Analysis: relative delta Hamming distance

Legend:
- FS=1
- FS=2
- FS=3
- FS=4
- FS=5-10
- FS>10

Absolute Frequency (y-axis)
relative delta HD (x-axis)
